

A1 Paket Station

Booking a box via the A1 Paket App

Logistic operators, retailers and individuals can use the A1 Paket Station.

The lockers can be booked for **good exchange** directly **via the A1 Paket App**. Goods, keys or other documents can be exchanged between people without personal contact, or things can simply be temporarily stored.

Orders and replacement deliveries can be stored and picked up at any time, **regardless of the opening hours**. A real benefit for retailers, customers and suppliers.

The **A1 Paket App** is required for booking a locker. Download the A1 Paket App in the Google Play Store or App Store. Alternatively go to www.a1paketstation.at in the web browser.

Registration with an Austrian mobile number is a requirement for reserving lockers. A1 sends SMS with QR codes for storage and collection. An additional registration for the collector is not necessary.

Exchange of goods simply works in 4 steps:

- 1 Reservation of the locker**
- | | |
|------------------|----------------------------|
| Selection: | Data: |
| • Station | • Reservation name |
| • Period of time | • First and Last name |
| • Locker size | • Mobile number |
| | • Email address (optional) |

- 2 Placing the goods**
- Sequence:
- Scan the code at the A1 Paket Station
 - The locker will open automatically
 - Place the goods in the locker and close the door

Retailer

- 3 Notification of the customer**
- Automated notification:
- A1 sends SMS with a pick-up code to customers

- 4 Collection of the goods**
- Sequence:
- Scan the code at the A1 Paket Station
 - The locker will open automatically
 - Remove the goods from the locker and close the door

1. Start a new reservation

Give a **reservation name**, set a **booking period** and select the desired **locker size**. Enter a **sender** and a **recipient** mobile phone number. If necessary, **barrier-free access** can be activated (only the middle lockers are used) and the **desired location** can be selected.

2. Dashboard

Current and completed bookings are displayed in the app's **dashboard**. Details of the respective booking can be displayed by clicking on the ">". To make a new booking, press the "+".

3. Place the package

To view the QR-Code click on „**Deliver a parcel**”. Scan the code with 10-20 cm of distance at the Paket Station. The authorization to deposit and collect can be withdrawn and reassigned.
